Cumulative Index 1976

Note: Page numbers of symposium and clinic titles are given in **boldface** type.

ACIDOSIS, urologic surgery and, June, 272–273
Acute confusional states, postoperative, June, **199–215**
Acute tubular necrosis, June, 367–371; Oct., 616
Addiction, postoperative acute confusional states and, June, 203–204
Adrenal glands, surgery of, June, **433–449**
Adrenalectomy, June, 440–441
Airway. See also *Respiration; Ventilation.*
  complications, acute respiratory failure and, June, 250–251
Aldosteronism, primary, June, 442–444
Alkalosis, urologic surgery and, June, 273
Allograft, immunogenicity, cadaver kidneys and, Oct., **475–490, 503–525, 581–582**
Aminoglycosides, kidney failure and, June, 357–359
Anemia, urologic surgery and, June, 255–259
Anesthesia. See also specific agents.
  urologic surgery and, June, **301–311**
Angiography, renal, transplantation and, Oct., **611–620**
Antibiotics. See also specific agents.
  kidney failure and, June, **353–362**
  urologic surgery and, June, **323–331**
Anticoagulants, in deep vein thrombosis, June, 396–397
Antilymphocyte globulin, kidney rejection and, Oct., 602–608
Antimicrobials, gram-negative bacillemia and, June, 341–347
Arrhythmias, cardiac, urologic surgery and, June, 234–235
Arteriography, in staging of bladder tumors, Feb., 121
Artery, renal, stenosis, June, 230–231
Azotemia, postoperative, June, 365–371

BACTEREMIA, gram-negative bacillemia and, June, **333–351**
  postprostatectomy, June, 325
Bacteriuria, postprostatectomy, June, 324
Biopsy, fractionated transurethral, in staging of bladder tumors, Feb., 115
Bladder, antibiotic rinse and, June, 315–316
  carcinoma, coffee drinking and, Feb., 19
    cytology and histopathology of, Feb., **71–78**
    epidemiology of, Feb., **13–29**
    histopathology and classification of, Feb., **53–70**
    occupation and, Feb., 14
    pelvic irradiation and, Feb., 19
    recognition of, Feb., **5–11**
    schistosoma haematobium and, Feb., 17
    segmental resection of, Feb., 153
    surgical management of, Feb., **149–175**
    tobacco use and, Feb., 16
    tryptophan metabolites and, Feb., 18
    viruses and, Feb., 20
  tumors, clinical staging of, Feb., **107–127**
    transurethral resection of, Feb., 151
Blood, clotting problems, June, **379–392**
    kidney rejection and, Oct., 559–560
  disorders, urologic surgery and, June, **255–266**
  gases, arterial, June, 240–242
  transfusion, antigenicity and, Oct., 594–595
  vessels, renal transplantation and, Oct., 614–616

CARCINOMA. See also *Tumors* and under name of part affected.

Carcinoma (*Continued*)
of bladder. See also *Bladder*.
chemotherapy and, June, 430–431
of kidney. See *Kidney, carcinoma of*.
of penis, chemotherapy and, June, 431
of prostate, chemotherapy and, June, 427, 429
of testicle, chemotherapy and, June, 423–425
of urothelium, Feb., **5–11, 87–105**
roentgen therapy for. See *Roentgen therapy*.
viruses and, Feb., 42
Catheterization, disseminated intravascular coagulation and, June, 387
urethral, urinary tract infection and, June, **313–321**
Cephalosporins, kidney failure and, June, 356–357
Chemotherapy, urogenital neoplasms and, June, **423–432**
Children, as cadaver donors, Oct., 469–471
fluid therapy in, June, **277–291**
renal transplantation in, Oct., **667–684**
Coagulation, problems, urologic surgery and, June, 265–266
Complications, cardiovascular, in diabetic kidney recipient, Oct., 695
of urologic surgery, June, **225–237**
intraoperative, acute confusional states and, June, 205
parenchymal, in renal transplantation, Oct., 616
pulmonary, prevention of, June, 243
scrotal, in renal transplantation, Oct., 641–642
surgical, in renal transplantation, Oct., **621–646**
urologic, in renal transplantation, Oct., 629–638, 695–696
vascular, in renal transplantation, Oct., 614–616, 621–629
Cushing's disease, adrenal cortex and, June, 434–440
Cystectomy, for bladder carcinoma, Feb., 153
radical, anesthesia and, June, 309
technique for, Feb., **177–193**
Cystinosis, kidney transplantation and, Oct., 682
Cystography, in staging of bladder tumors, Feb., 117

DIABETES, kidney transplantation and, Oct., **691–699**
Digitalis, urologic surgery and, June, 234
Disseminated intravascular coagulation, postoperative, June, **379–392**
Diuresis, postobstructive, June, 275
Diverticula, vesicular, neoplasms in, Feb., 124
Drugs. See also specific drugs.
acute confusional states and, June, 206
acute respiratory failure and, June, 248

ENDOCARDITIS, urologic surgery and, June, 228–229
Erythrocytosis, urologic surgery and, June, 259–260

FEVER, acute confusional states and, June, 205
Fibrinolysis, postoperative, June, 384–386
Fistula, arteriovenous, in renal transplantation, Oct., 629
ureteral, in renal transplantation, Oct., 631–636
vesical, in renal transplantation, Oct., 636–637
Fluids, and electrolytes, in acute respiratory failure, June, 248–249
urologic surgery and, June, **267–276**
in children, June, **277–291**

GLOMERULONEPHRITIS, kidney transplantation and, Oct., 681–682
Graft, rejection, antigenicity and, Oct., 594–595
rupture, in renal transplantation, Oct., 637–638

HEART, evaluation of, preoperative, June, **217–223**
failure, congestive, June, 229
Hemodialysis, acute tubular necrosis and, June, 376
renal transplantation and, Oct., 578–579
pediatric, Oct., 668–670
surgery and, June, 364–365
Hypercalcemia, urologic surgery and, June, 274
Hyperkalemia, urologic surgery and, June, 272, 375
Hypermagnesemia, urologic surgery and, June, 274–275
Hypernatremia, urologic surgery and, June, 271
Hypertension, surgery for, anesthesia and, June, 306–307
Hypocalcemia, urologic surgery and, June, 274
Hypokalemia, in children, June, 286–287
urologic surgery and, June, 271–272
Hypomagnesemia, urologic surgery and, June, 275
Hyponatremia, in children, June, 283–286
urologic surgery and, June, 269–270

IMMUNITY, cellular, kidney rejection and, Oct., 562–567
Immunosuppression, cadaver kidney and, Oct., **475–490**
kidney transplantation and, Oct., **575–596, 597–610**
pediatric, Oct., 675

Immunotherapy, for uroepithelial cancer, 41
Infection, antigenicity and, Oct., 594–595
  wound, in renal transplantation, Oct., 638–639
Intestinal loop, surgery, antibiotics and, June, 325–326, 329
Intubation, tracheal, June, 246

KIDNEY(S), cadaver, preservation of, Oct., **491–502**
  pretreatment of, Oct., **475–490**
  procurement of, Oct., **457–473**
  carcinoma of, chemotherapy and, June, 429–430
  disease of, acute confusional states and, June, 207
    histocompatibility testing and, Oct., 520–521
  failure, antibiotics and, June, **353–362**
    in children, June, 289–290
    pre- and postoperative, June, **363–377**
  function, tests of, June, **293–299**
  obstruction, in children, June, 290
  surgery, anesthesia and, June, 309
  transplants, anesthesia and, June, 307–308

LYMPHANGIOGRAPHY, in staging of bladder tumors, Feb., 119
Lymphoceles, in renal transplantation, Oct. 639–641

MEDICATION, cadaver kidney donor and, Oct., 464–465
Methylprednisolone, kidney rejection and, Oct., 576
Monitoring, in acute respiratory failure, June, 249–250
  immunologic, kidney rejection and, Oct., 560–561
Muscle, relaxants, urologic surgery and, June, 302–303
Myocardium, infarct, urologic surgery and, June, 227–228

NEOPLASMS. See *Tumors*.
Nephrectomy, bilateral, in renal transplantation, Oct., 534–543
  cadaver donor, Oct., 465–469
  transplant, complications of, Oct., 642–643
Nephritis, recurrent, in renal transplantation, Oct., 568
Nerve, injury, in renal transplantation, Oct., 641
Nutrition, parenteral, June, 407–418
    in children, June, 277–280
  urologic surgery and, June, **403–421**

PENICILLIN, kidney failure and, June, 354–356
Perfusates, in kidney preservation, Oct., 497–498
Pheochromocytoma, June, 444–448
Pneumonia, acute respiratory failure and, June, 250
Pneumothorax, respiratory failure and, June, 250
Pregnancy, antigenicity and, Oct., 594–595
Prostatectomy, anesthesia and, June, 304–306
  antibiotics and, June, 323–325, 328–329
  disseminated intravascular coagulation and, June, 388–390
Proteinuria, kidney rejection and, Oct., 559
Pulmonary embolism, diagnosis of, June, 393–394
  urologic surgery and, June, 229–230
Pulmonary function, urologic surgery and, June, **239–254**
Pyelography, intravenous, June, 295

RADIOISOTOPE scanning. See *Scanning*.
Renal. See also *Kidneys*.
Renal preservation, Oct., **491–502**
Renal transplantation, Oct., **457–699**
Renal tubular dysfunction, Oct., 557–559
Renography, radioactive, Oct., 556
Respiratory failure, urologic surgery and, June, 243–249
Roentgen therapy, bladder carcinoma and, Feb., **129–148**, 155
  clinical staging of bladder tumors and, Feb., 112
  in renal transplantation, Oct., 577, 600–602
  pelvic, and bladder cancer, Feb., 19

SCANNING, of kidneys, June, 295–296
Seizures, postoperative acute confusional states and, June, 204–205
Septicemia, in renal transplantation, Oct., **647–666**
Shock, gram-negative bacillemia and, June, 348
  in children, June, 287–288
Splenectomy, in renal transplantation, Oct., 543–549, 580–581
Stenosis, renal artery, in renal transplantation, Oct., 623–628
Steroids, kidney rejection and, Oct., 597–600
Surgery, adjuvant, in renal transplantation, Oct., **527–551**

TESTS, histocompatibility, in renal transplantation, Oct., **503–525**
  immunologic, for kidney rejection, Oct., **553–573**
  viability, in kidney preservation, Oct., 498–501

Thrombocytopenia, urologic surgery and, June, 263–265
Thrombocytosis, urologic surgery and, June, 265
Thrombosis, deep vein, June, 229–230, **393–401**
  in renal transplantation, Oct., 621–623
Thymectomy, renal transplantation and, Oct., 527–533
Trauma, acute confusional states and, June, 204
  nutrition and, June, 403–404
Tumors. See also *Carcinoma*, specific tumors, and names of organs.
Tumors, of the bladder. See *Bladder, tumors.*
  of testicle, nonseminomatous, June, 425–427
  uroepithelial, immunobiology and virology, Feb., **31–51**
  urogenital, chemotherapy and, June, **423–432**
    upper urinary tract, Feb., **79–86**

URETER, obstruction of, in renal transplantation, Oct., 631
Urinary tract, diversion of, kidney transplantation and, Oct., **685–690**
  upper, uroepithelial tumors of, Feb., **79–86**
  virus infections and, Feb., 46
Uroepithelium, carcinoma in situ of, Feb., **5–11, 87–105**
Urography, excretory, in staging of bladder tumors, Feb., 115

VENTILATION, assisted, in postoperative respiratory failure, June, 246, 251–252
Virus(es), bladder cancer and, Feb., 20, 42

WILMS' tumor, kidney transplantation and, Oct., 680–681
Wound, complications, in renal transplantation, Oct., 638–642
